

Did you know that  
the average elementary  
school in Manitoba uses

**39,000**

milk and juice cartons  
every year?

Everyday recyclable containers  
end up in our landfills due to  
contamination.

By learning and working together, we can  
prevent milk cartons and other recyclable  
beverage containers from going to waste.

#### THE PROGRAM

Recycle Right with Milk  
encourages students  
working together to  
develop better recycling  
habits, everyday!

#### EVERYONE CAN PARTICIPATE

Students in each class  
will work together to collect  
and recycle all beverage  
containers used at lunch.

#### MILK

Milk is available at school  
for students to purchase  
and enjoy with lunch.

**MILK IS:** a source of  
15 essential nutrients;  
important for growing  
students; and convenient  
for lunches.

#### STUDENT BENEFITS:

- Access to cold milk  
at lunch
- Learning how to work as  
part of a team
- Discovering the importance  
of recycling right

#### NEED MORE INFO?

For more information on how your kid(s) can enjoy milk, please contact the school.
